All over the world, kids are discovering the fun of LEGO® Spinners!

These LEGO fans are proving that LEGO toys are tops!

Young Inventors Put a New Spin on LEGO Bricks!

Recently, three young inventors wrote the LEGO company to tell us about a great new game they had created. Using parts from their LEGO collections, Jonas, Matthias and Frederik designed a set of spinning tops. The president of the LEGO company, Kjeld Kirk Kristiansen, was so impressed by their imagination and creativity that he wrote a personal letter back to them, telling them how much he liked their LEGO Spinners!

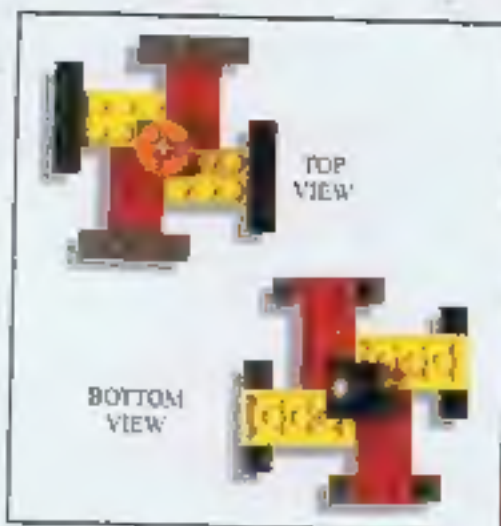

All over the world, young fans have been using their LEGO elements to create amazing tops. James Dorfman, 10, of New York, even went through the formal process of presenting his ideas for spinning tops to the LEGO Company Director of Global Inventor Relations at the Toy Fair in NYC this past February.

Not only had James designed and built prototypes of his tops, he had tested them with his friends and rated the various designs based on performance. He even had suggestions for possible TV commercials.

Design Your Own, One-of-a-Kind LEGO Spinner

You only need a few basic elements to create a simple LEGO Spinner. Of course, you'll want to use your favorite colors and even add more LEGO elements to design a LEGO Spinner that's all your own. That's part of the fun of LEGO Spinners - seeing just how incredible your design can be!

LEGO Spinner Games

Spinner Skirmish

- 1) Make an arena out of a lamp, a tray, or anything with a flat base and raised edges.
- 2) Each contestant places their LEGO Spinner inside the arena and gets set for launch.
- 3) Count down to START!
- 4) All contestants should launch their spinners at the same time.
- 5) Last spinner standing is declared Champ!

Top Time

- 1) Place your LEGO spinner on a flat surface.
- 2) Count down to START.
- 3) Launch your spinner with a twist of your fingers or a LEGO pull-back motor.
- 4) Use a stopwatch or clock with a second hand to see how long your spinner will stay up.
- 5) Try modifying your LEGO Spinner design to make it swirl even longer.
- 6) See who can set the long-spin record!

THE CHANGE IS COMING. ARE YOU READY?

RETURN TO HOGWARTS!

It's a new year at Hogwarts™ and, my, how things have changed! Who are these Fearsome Dementors™ that prowl the grounds? And what do they want from Harry?

4757 Hogwarts Castle and Clock Tower

Featuring Hogwarts™ Clock Tower, Gryffindor™ Tower and Trelawney's Classroom.

Look out for the trapdoor!

Wind-up motion moves the clock pendulum and raises the gate!

TOP TEN REASONS DEMENTORS™ CAN'T BUILD

10. Slimy hands make it hard to grip LEGO® bricks.
9. Minifigures panic when they're around.
8. Frustrated that no one wants to stay and read the LEGO building instructions with them.
7. Have to keep stopping to drain all the fun out of the room.
6. Lack of past ribs them of the fun of stepping on all these little LEGO pieces.
5. Good at taking things apart; bad at putting them together.
4. Dumbledore will not allow them to build a life-size Harry brick sculpture in Hogwarts Castle.
3. Can't understand why there isn't a LEGO set called "Dynamic Dementor Defenders."
2. Worried that their minifigure cloaks make them look frumpy.
1. Too busy trying to kiss the Sirius Black™ minifigure.

Build Your Own ULTIMATE HOGWARTS™ For a Chance to Win!

LEGO® contest

What do you get when you combine two Hogwarts Castles? We asked our LEGO® Master Builders, and here's the result!

This ULTIMATE HOGWARTS CASTLE was created by combining elements from the original 4709 Hogwarts Castle and the new 4757 Hogwarts Castle that features a working Clock Tower!

GRAND PRIZE!

Entries must be received by July 1st, 2004!

ENTER THE ULTIMATE HOGWARTS CONTEST!

Use your LEGO® collection to create the biggest, best and most magical Hogwarts Castle you can imagine. Three favorites will be chosen by a very special panel of judges - none other than Emma Watson (Hermione Granger), Rupert Grint (Ron Weasley), and Daniel Radcliffe (Harry Potter, himself!)

You could win a Grand Prize (5*) Harry Potter model not available in stores, one of two (2) First Prizes of all the new LEGO Harry Potter sets, or one of three (3) Second Prize LEGO Hogwarts Castle sets. To enter, send a photo of your unique Hogwarts Castle model to:

ULTIMATE HOGWARTS CONTEST
P.O. Box 1625
Enfield, CT 06032

Be sure to include your name, address, age and phone number along with the photo of your model. No photocopies or computer printouts, please! If your version of Hogwarts has special features, you can include additional photos to show them off. Pictures will not be returned, so be sure to take some extras for yourself!

Exploration Rover!

LEGO MER Rover Replica

This full-size LEGO® model of the Mars Rover took a team of LEGO Master-builders more than 650 hours to build. It tips the scales at 250 pounds (130 kg) and contains more than 90,000 LEGO bricks! All of the instruments, components and structures were reproduced to scale with the real-life rover.

This LEGO® Mars Exploration Rover (7471) is a highly detailed miniature replica of both Mars rovers Spirit and Opportunity. It's built up of 858 elements and features a flip-up solar panel, movable radio dish and controllable steering. You can use it to reenact the Mars Rover mission of 2004, or to explore that strange, uncharted landscape beneath your bed.

The Real Rovers

During the exploration phase of their mission, Spirit and Opportunity transmitted a wealth of scientific data back to Earth. Information that will help ensure the success of future Mars missions. The real rover measures 4.8 feet tall, 7.8 feet wide and 5.2 feet long and weighs in at 495 pounds (225 kilograms).

WELCOME TO MARS!

GREETINGS FROM MARS!

Sandy: Hello out there, LEGO club member! We made it to Mars!
Biff: That's the one they stop for a tiny robot, and, well, one come what larger stop for dunes and dustbats everywhere!
Sandy: We've transported our mini-DDEs to Mars, just like we told the world.
Biff: They contain the names of nearly 4 million earthlings!
Sandy: And since they're made of silica glass, they should last for more than 500 years here on the Martian surface!
Biff: That's all for now. I'm off to go surfing at Sunny Crest!
Sandy: Surfing? Biff, have you found water on Mars?
Biff: SURF-surfing, Sandy! I just swished in! It's going to be all the rage back on Earth!
Sandy: I think all that sand must have clogged your circuit, Biff.

*Welcome to the Kingdom of Morcia,
a land of magic and adventure!*

Greetings! I am Danju, Knight of Morcia. We Knights have long protected our peaceful kingdom and displayed our skills in the tournament arena, but now the king has vanished and the evil Vladek has stolen the throne. If we cannot stop him in time, Vladek and his Shadow Knights will rule all of Morcia!

It's up to four brave Knights to find the Heart of the Magical Shield of Ages and save the Kingdom!

Jayko

Courageous to the core, our youngest hero's lightning reflexes allow him to strike as swiftly as a bird of prey.

Danju

A lifelong dedication to duty, Danju inspires other knights to follow his lead and become devoted veterans.

Santis

Incredible brawn, the strongest of gentle giant, Santis can "bear up" under a load of burdens.

Rascus

While he might seem a bit mischievous, this playful knight would never let his "monkeyshines" put his friends in danger.

Vladek

Once a respected tournament champion, this lethal villain now uses sorcery to reclaim the throne of Morcia.

How well do you know your Knights? See if you can match each Knight's letter with his shield emblem.
